EDUCATION

Chennai Institute of Technology (November 21, 2021 - Present)
B.E., Computer Science
7.9

I'm a third-year undergrad student at the Chennai Institute of Technology and a Tech enthusiastic.

Everwin Matric. Hr. Sec. School (June 10, 2015 - May 20, 2021)
SSLC& HSC, PCM
SSLC-83% & HSC-89%

I have completed my Higher Secondary Education at Everwin Matriculation School in Chennai where I have completed my HSC in Computer Science with Physics, Chemistry, and Mathematics with 89%.

PROJECTS

SnapArt
.
I have developed an Android app that allows us to view images on our phones by sliding through them using ViewPager2.

SnapCove
.
I have developed an Android app that allows us to view images on our phone by fetching data from Firebase and swiping up and down using RecyclerView.

NoteBox
Notes App
I have developed an Android app that allows us to store important information and take notes. It also provides a feature to view the notes that we have written.

TKStudentDB
.
The Tkinter-based student database app is a user-friendly tool for efficiently managing student information. It offers easy storage, retrieval, and modification of student data, including attendance, grades, and contact details.
